

School Entry Health Review

This information may be helpful now that your child is in full time school.

Does your child have a medical condition e.g. Asthma, Diabetes, Eczema, Epilepsy, or a severe allergy - that may require emergency injection?

Please ensure that your child's school is informed about your child's medical condition and of any medication or treatment your child requires during the school day. The school may suggest that an individual health care plan is in place in order to support your child.

Are you concerned about your child's vision, hearing, or speech?

- A distance vision screen will be undertaken in school by the School Nursing Service. *This is the only routine vision screen in school. It is recommended that all children should have free regular eye checks with their local optometrist (optician).*
- A hearing screen will be undertaken in school by the Audiologist.
- Referrals for speech therapy are made by your child's school. *Please discuss with your child's teacher.*

Are you concerned about your child's growth e.g. short or tall stature, under or overweight?

Your child's growth will be measured by the School Nursing Service.

For information on helping children to stay fit and healthy visit www.everychildwales.co.uk

Are you concerned about your child's emotional health and wellbeing or behaviour?

For helpful hints and tips for parents on promoting positive behaviour visit: www.giveittime.gov.wales

Are you concerned about your child's learning?

Please discuss with your child's teacher. An individual development plan may be required.

Are you concerned about your child day/night time wetting or constipation?

For helpful information visit www.eric.org.uk

Is your child up to date with their immunisations?

Your personal child health record (red book) should include details and your School Nurse will also check your child's health record.

For more information about immunisations visit: nhs.uk/doiyouyourself/vaccinations/leaflets/

If your child needs any immunisations please contact your GP.

Is your child registered with a dentist?

It is recommended that children should see a dentist at least annually.

For dental health advice visit <http://www.designedtosmile.org/>

Does anyone in your child's home smoke?

Free friendly support to quit smoking is available from www.helpmequit.wales Tel: 0800 085 2219

For details of local services and organisations that can help visit: <https://www.dewis.wales/home>

The School Nurse may contact you to discuss your child's health as part of the health review. Please contact your School Nurse if you wish to discuss your child's health now or at any time in the future.
